Description: The Grameni stage starts and finishes with spectacular successive jumps! After the start, the driving requires a bit more technique as the cars go uphill for 8 km. Then on, the road gets flat and the speed rises, as the cars go through the famous rally spot of the “two trees”, before a sudden change of direction on kilometer 13,44. At the following 8,5 km it gets pretty fast again, with various changes of direction, before the yumps at the finish!
